open the folder in sublime just like before

1- open file "installation.py" and build this

2- open file "run_1.py" and build this

actually this file is responsible for scraping data from streets

<https://docs.google.com/spreadsheets/d/108780w9OUDCZmVOoeXaq10ByZLY7WGJP53NONU6Lri8/edit?usp=sharing>

and put the scrapped data into

<https://docs.google.com/spreadsheets/d/1KZ8R-gOCSvOg9mH1FAYPVafTjsr2QgRHPJk0V2ROKz4/edit?usp=sharing>

you can check the results

3- open file "run_2.py" and build this

the scrapped account will be stored in

https://docs.google.com/spreadsheets/d/1obHy18EuMoit6H9nt_2xmsaE-AvIVKEN5qxZrZG5PeA/edit?usp=sharing

(Note: currently this file is empty)
